

**SAMPUTENSILI STW**

上 优 机 床 工 具 ( 上 海 ) 有 限 公 司

At Samputensili, we do our best to understand our customers' needs and to fully satisfy their expectations with customized solutions.

On the 2<sup>nd</sup> December 2011, SU shanghai has organized a technical seminar to introduce advanced cutting tool design concept, new application of machine, and developing manufacture processes in order to help its customers solving technical and manufacturing concerns.

Especially, experienced consulting engineers and technical directors of SU worldwide Plants (Italy, Brazil, Korea) are invited to support our customers with gear theory and hands-on help.
